

## OUR STORY

What began as a love for eating turned into a passion for cooking. Our history of always offering to cook for family and friends led to the dream of turning our passion into a business. Encouraged by the many compliments we have received, Hiro's Island Catering was born in 2011.

Our name "Hiro" means "Generous" and that's our mission — to generously provide for all your catering needs and to exceed your expectations for quality and service every time. We make it easy for you to provide food for any occasion. Always served nice and hot, all your guests need to do is show up and eat!
